

Coach Martino has been with the Monroe Catholic Boy's Basketball Program for the past two seasons. Coach Martino has been a fixture in the Fairbanks basketball community, as a player and a coach. Coach Martino attended the Catholic Schools of Fairbanks through 8th grade, before graduating from West Valley. Following high school graduation, Coach Martino matriculated to Lehigh University, where he received his Bachelors and Masters degrees.

Over the past two years Coach Martino has made an impact in his role as an assistant coach. He has played an integral role in developing the Monroe offense while also developing strong relationships with the players. Coach Martino has a gift for finding ways to maximize each player's offensive skill set and incorporating those skills into an offensive game plan that has helped the Rams to a 47-11 record during his tenure.

Coach Martino is also an excellent teacher of the game. During the summer you will find him in the gym working with players and helping them to reach their full potential as players. His combination of enthusiasm, intelligence and work ethic are integral to the future success of our program.

Coach Martino and his better half, Michelle, have two young children Payton and Austin.
